JAIN CHIRAG

BTech Computer Science & Engineering Student

RESUME TEMPLATE — REPLACE WITH YOUR REAL DETAILS BEFORE SUBMISSION

CONTACT

Email: YOUR_EMAIL@example.com | GitHub: github.com/YOUR_GITHUB_USERNAME
LinkedIn: Add your profile URL | Location: Add city (optional)

PROFILE

BTech CSE student interested in programming, web development, and database-driven applications. Replace this sample summary with a short, accurate description of your background and goals.

EDUCATION

BTech — Computer Science & Engineering
Institution: Add your college name
Expected graduation: Add year

TECHNICAL SKILLS

HTML5 · CSS3 · JavaScript basics · Python · Git · GitHub · SQL basics
Only keep skills you can explain and demonstrate.

PROJECTS

PROTEAM Gym Website — Add an accurate summary, features, and repository URL.

File Encryption Tool — Add the features you implemented and the technologies used.

Phishing URL Detector — Add an accurate description and the limitations of the project.

Gym Membership Database — Add your schema, queries, and implemented features.

SOFT SKILLS & ACHIEVEMENTS

Add genuine skills, coursework, certificates, awards, or activities. Remove this note when completed.

Important: This is a template for layout demonstration, not a finished factual résumé. Replace all prompts with accurate information.
